Sony BRAVIA KDL BX450 1080p HDTV, Black

Product Features

- Amazing High Definition picture quality
- 40" HDTV
- 5.1 Channel Audio

Technical Details

- **Brand Name:** Sony
- **Model:** KDL40BX450
- **Display Technology:** LCD
- **Display Size:** 40 inches
- **Image Aspect Ratio:** 16:09
- **Weight:** 37.00 pounds
- **Image Contrast Ratio:** 40000:1
- **Resolution:** 1080p
- **Refresh Rate:** 60

Product Description

- Brilliant Full HD 1080p picture quality
- Four HD inputs for a cable box, PS3 and more*
 - Share your pictures on the big screen via USB input
 - Clear detail & contrast w/ Clear Resolution Enhancer
 - Less grain & clear picture w/ Digital Noise Reduction
 - Theater-like movie viewing with 24p True Cinema
- One remote for multiple devices with BRAVIA Sync

Experience Full HD 1080p clarity-the highest resolution available-with the Sony KDL40BX450 Full HD 1080p HDTV. From football games to TV shows, everything will look its best. And with 4 HD inputs, you can connect your cable box, Playstation 3, Blu-ray Disc player and more.* There's also a USB port for enjoying your camera's photos on the big screen.

Key Features

Full HD 1080p

Enjoy crystal-clear detail with Full HD 1080p picture quality. It's the highest in-home resolution available and takes advantage of the all-out HD experience of

broadcast TV, satellite and other HD sources like your Blu-ray Disc player or PlayStation 3 entertainment system.

Four HD Inputs

With the KDL40BX450, you can plug into the action with versatile HD connection options. Four HD inputs include two HDMI inputs for sources like your HD cable box, home theater system, Blu-ray Disc player or PS3 system, one HD component input and a PC input (HD-15 pin) which lets you use your HDTV as a computer monitor.*

USB Input

Share your vacation photos instantly on the big screen or listen to your favorite music. Simply connect your compatible digital camera, USB-enabled MP3 player or USB storage device directly to your HDTV's USB input. It's a fast and simple way to relive the memories without a hassle.

Clear Resolution Enhancer

Fine details and textures appear in whatever you're watching, even in flat areas. Powered by Sony's advanced noise reduction algorithm, this technology boosts image clarity with heightened

Please allow time for delivery usually one (1) to two (2) week.

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

contrast and depth that you won't find on most televisions.

Scene Select

With the KDL40BX450, adjusting the picture is as easy as changing the channel. Just make a quick choice among five pre-configured audio and video settings for a customized fit to what you're watching. Scene Select options include Sports, Photo, Game, Cinema and Music.

24p True Cinema

Enjoy movie theater-like quality with Sony's 24p True Cinema technology. The technology allows the TV to maintain a movie's original 24 frames per second (fps) rate so it looks less like television and more like it would in the movie theater.

BRAVIA Sync

With BRAVIA Sync, you can conveniently operate and control other BRAVIA Sync compatible devices – including BRAVIA HDTVs, Blu-ray Disc players, surround sound systems, Handycam camcorders and Cyber-shot digital still cameras, all with one remote control.**

Sony BRAVIA KDL EX640 1080p LED Internet TV, Black

Product Features

- Brilliant Full HD 1080p picture quality
- Lifelike movement with Motionflow XR 240
- Clear Resolution Enhancer for clear detail
- Bright picture & thin design with Edge LED backlight
- Movies, music & apps with Sony Entertainment Network

Technical Details

- **Brand Name:** Sony
- **Model:** KDL40EX640
- **Display Technology:** LED-lit
- **Display Size:** 40 inches
- **Image Aspect Ratio:** 16:09
- **Weight:** 40.00 pounds
- **Image Contrast Ratio:** 100000:1
- **Resolution:** 1080p
- **Refresh Rate:** 240

Product Description

- **Brilliant Full HD 1080p picture quality**
- **Lifelike movement with MotionFlow XR 240**
 - **Vivid detail & contrast with Clear Resolution Enhancer**
 - **Bright picture & thin design with Edge LED backlight**
 - **Movies, music & apps with Sony Entertainment Network¹**
 - **Wi-Fi adaptor included to stream HD entertainment.**

Experience vivid picture quality and unlimited entertainment with the Sony KDL40EX640 1080p LED Internet TV. This elegantly slim LED TV boasts Full HD 1080p for incredible detail and Edge LED backlighting for boosted contrast. Internet connectivity is easily accessible, so you can watch YouTube clips and access online HD movies, music and more.

Vivid Picture Quality

Full HD 1080p

Enjoy crystal-clear detail with Full HD 1080p picture quality. It's the highest in-home resolution available and takes advantage of the all-out HD experience of broadcast TV, satellite and other HD sources like your Blu-ray Disc

player or PlayStation 3 entertainment system.

Motionflow XR 240 Technology

Motionflow XR 240 technology takes motion clarity beyond refresh rates, which are only measured in Hz, to double the motion effect for lifelike clarity. Golf balls roll clearly, with less blurring, as the camera follows them across the green. Footballs retain their detail and move smoothly as the camera pans quickly during a kickoff. Even quick motion seen in action movies appears amazingly realistic.

Clear Resolution Enhancer

Fine details and textures appear in whatever you're watching, even in flat areas. Powered by Sony's advanced noise reduction algorithm, this technology boosts image clarity with heightened contrast and depth that you won't find on most televisions.

Edge LED

Experience Sony's Edge LED Backlight technology with the KDL40EX640. Powerful yet thin LEDs deliver a drastically brighter picture than conventional LCD backlighting. They also help achieve an ultra-slim TV design that looks beautiful in your home. Plus, Sony's Edge LED Backlight technology delivers outstanding contrast, rich colors and enhanced dark-scene detail.

Please allow time for delivery usually one (1) to two (2) week.

325-8600, 795-9112

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

Digital Noise Reduction

Enjoy ultra-vivid HD clarity and less grain while watching TV with the whole family. Digital Noise Reduction enhances detail in whatever you're watching with meticulous processing. It even helps clean up video from USB and other PC sources so the picture looks pristine and vivid.

Smart Features

Picture Settings Made Easy

Adjusting the picture is as easy as changing the channel. Just make a quick choice among five pre-configured audio and video settings to customize the look and sound of what you're watching. Scene Select includes options for sports, photos, games, cinema and music.

Wi-Fi Ready

Easily connect to a wireless network with the EX640 series. Using the UWA-BR100 Wi-Fi adapter (included), you have instant access to stream movies, photos, music and videos straight to your TV from the internet or your home network—without wires.

Sony Entertainment Network

Experience the endless entertainment of the Sony Entertainment Network, where thousands of movies, TV shows, online videos, games and music are always at your fingertips. By connecting to the Internet you can access Full HD 1080p entertainment, 3D content and made-for-TV apps like Netflix, Pandora, YouTube, Facebook and more.

Broadband speed of at least 2.5 Mbps recommended (10 Mbps for HD). Content subject to change and may

require fees. Wireless connectivity requires 802.11 home network (802.11n recommended).

Experience all the features of the Sony KDL46HX750 1080p 3D LED Internet TV as it becomes the centerpiece of your living space. With highly acclaimed X-Reality Engine technology that analyzes each scene, it's no wonder the colors and textures in everything you watch—HD movies, sports,

even YouTube clips—look so natural. Lifelike motion comes via Motionflow XR 480 technology for that at-the-game feeling. Plus, Internet connectivity provides access to music, thousands of movies, TV shows, and more.

Vivid, Lifelike Entertainment

X-Reality Picture Engine

Experience a picture so real you won't believe it's TV. Skin tones, landscape foliage and countless details come alive as Sony's exclusive X-Reality Engine displays realistic images. The processor optimizes four key characteristics—texture, outline, contrast, color—so each scene looks authentic.

Motionflow XR 480

Motionflow XR 480 technology takes motion clarity beyond refresh rates, which are only measured in Hz, to double the motion effect for lifelike clarity. Golf balls roll clearly, with less blurring, as the camera follows them across the green. Footballs retain their detail and move smoothly as the camera pans quickly during a kickoff. Even quick motion seen in action movies appears amazingly realistic.

Dynamic Edge LED

Perfecting a natural look, Dynamic Edge LED backlighting delivers pitch-black night scenes and illuminates bright scenes that pop with vibrant color. Rather than illuminating the entire screen, contrast is boosted in just the right spots for a more

realistic picture.

Experience Sony 3D

3D in Full HD

Brace yourself for pure 3D excitement that feels like you're participating in the actual scene. Through advanced Active 3D technology, immerse yourself in Full HD 1080p clarity and phenomenal 3D picture quality. Just slide on the comfortable 3D active glasses and enter a whole new dimension.²

Auto 3D Depth Adjustment

Relive your favorite memory with the realism of 3D. Auto 3D Depth Adjustment precisely recreates the moment, making even 3D home movies look more natural.² Plus, it reduces eye strain and enhances whatever you're watching—from 3D Blu-ray Disc movies to web videos.¹

Smart Features

Built-in Wi-Fi and Wi-Fi Direct

Maximize your entertainment while reducing cable clutter. Wirelessly stream beautiful, HD entertainment straight from the internet or your home network using built-in Wi-Fi connectivity.¹ In addition, Wi-Fi Direct allows your friends to share their personal photos and videos on your beautiful HDTV. With Sony's Wi-Fi Direct Mode, your friends can throw personal content to your TV without connecting to your home network. Wi-Fi Direct completely bypasses the Wi-Fi access

point/router, so it's easy to set up.³

Skype

Skype video calls bring your family and friends closer than ever as they appear as large as life on your big screen—for free.¹ Just connect the easy-to-use Skype camera (sold separately) for a face-to-face look at the caller on the beauty of your Sony HDTV.

Intelligent Connect

Experience your content on a grand scale simply by connecting your compatible smartphone, computer or Sony Tablet S via your existing Wi-Fi network. After simply connecting, you can easily "throw" your videos, photos and music files to your HDTV.³

Media Remote App

Enjoy one less remote control on the coffee table. Just download the free Media Remote app and turn your iPhone, Android phone or Sony Tablet S into a versatile remote control with a full QWERTY keyboard.⁴ It makes changing channels and typing searches ultra-fast and convenient.

Track ID

Want to know what that song in the TV show, movie or commercial you're watching? Press 'TrackID' on your remote and get the song name and artist instantly.⁵ You can also conveniently start TrackID by

shaking a smartphone that's running the Media Remote app.⁴

Eco Drive

Enjoy lower energy bills with reduced power consumption of up to 30% while maintaining beautiful image quality with Eco Drive technology. It automatically reduces power consumption while boosting color and detail on the screen and conserving energy used by the backlight.⁶

Game Mode

Play your PlayStation Vita system or other handheld gaming consoles (with SD output) on your HDTV with no irritating black borders surrounding the picture. Just select Game Mode for an ideal fit to your TV screen according to the input. Better yet, Super Resolution Processing delivers a clear, crisp view in HD size.

iManual

You will never lose your TV manual again. The iManual is available through the menu system on the TV – always there if you need it.

Video Search

Searching for shows and music on your TV is so simple. Just press 'GUIDE' on your remote and see what's on and what's coming up with a handy image to go with it. You also get an episode synopsis, cast and crew details and suggestions to related

TELEVISIONS 40 INCH – 42 INCH – 46 INCH – 55 INCH – 65 INCH

shows, on-demand movies and Blu-ray Disc titles.⁵

Music Search

Find music easily with Music Search. Music Search with the TrackID button cleverly recognizes the melody of the music playing on your TV. Want to go further? Search to find more songs by the same artist and other related web content and share your discovery with the world via Twitter.⁵

Sony Entertainment Network

Experience the endless entertainment of the Sony Entertainment Network, where thousands of movies, TV shows, online videos, games and music are always at your fingertips. By connecting to the Internet you can access Full HD 1080p entertainment, 3D content² and made-for-TV apps like Netflix, Pandora, YouTube, Facebook and more.*

Broadband speed of at least 2.5 Mbps recommended (10 Mbps for HD). Content subject to change and may require fees. Wireless connectivity requires 802.11 home network (802.11n recommended). Skype requires CMU-BR100 camera sold sep. Subject to Skype's terms and conditions.

²Requires 3D content, 3D player, HDMI cable (at least 10.2 Gbps) and 3D active glasses sold separately.

³Streaming content, copy-protected content and certain formats are not supported.

⁴Requires devices connected to the same wireless home network.

⁵Requires active Internet connection.

scenes and illuminates bright scenes that pop with vibrant color. Rather than illuminating the entire screen, contrast is boosted in just the right spots for a more realistic picture.

Experience Sony 3D

3D in Full HD

Brace yourself for pure 3D excitement that feels like you're participating in the actual scene. Through advanced Active 3D technology, immerse yourself in Full HD 1080p clarity and phenomenal 3D picture quality. Just slide on the comfortable 3D active glasses and enter a whole new dimension.

3D Reality Creation

Feel like you're standing alongside your favorite actor as the environment surrounds you with exceptional 3D detail.² Ultra-realistic effects are achieved by X-Reality PRO 3D Super Resolution, optimizing each area of the 3D scene by drawing on its database of patterns, shapes and textures.

Smart Design, Smart Features

OptiContrast Panel with Corning Gorilla Glass

Corning's exclusive Gorilla Glass lets you enjoy an incredibly durable, remarkably lightweight, frameless design with a seamless, sophisticated look. Paired with the OptiContrast panel, Gorilla Glass helps boost contrast and brightness while minimizing unwanted light reflections.

Built-in Wi-Fi and Wi-Fi Direct

Maximize your entertainment while reducing cable clutter. Wirelessly stream beautiful, HD entertainment straight from the internet or your home network using built-in Wi-Fi connectivity.¹ In addition, Wi-Fi Direct allows your friends to share their personal photos and videos on your beautiful HDTV. With Sony's Wi-Fi Direct Mode, your friends can throw personal content to your TV without connecting to your home network. Wi-Fi Direct completely bypasses the Wi-Fi access point/router, so it's easy to set up.

Skype

Skype video calls bring your family and friends closer than ever as they appear as large as life on your big screen—for free.¹ Just connect the easy-to-use Skype camera (sold separately) for a face-to-face look at the caller on the beauty of your Sony HDTV.

Intelligent Connect

Experience your content on a grand scale simply by connecting your compatible smartphone, computer or Sony Tablet S via your existing Wi-Fi network. After simply connecting, you can easily "throw" your videos, photos and music files to your HDTV.

Media Remote App

Enjoy one less remote control on the coffee table. Just download

the free Media Remote app and turn your iPhone, Android phone or Sony Tablet S into a versatile remote control with a full QWERTY keyboard. It makes changing channels and typing searches ultra-fast and convenient.

Track ID

Want to know what that song in the TV show, movie or commercial you're watching? Press 'TrackID' on your remote and get the song name and artist instantly.⁵ You can also conveniently start TrackID by shaking a smartphone that's running the Media Remote app.

Eco Drive

Enjoy lower energy bills with reduced power consumption of up to 30% while maintaining beautiful image quality with Eco Drive technology. It automatically reduces power consumption while boosting color and detail on the screen and conserving energy used by the backlight.

Game Mode

Play your PlayStation Vita system or other handheld gaming consoles (with SD output) on your HDTV with no irritating black borders surrounding the picture. Just select Game Mode for an ideal fit to your TV screen according to the input. Better yet, Super Resolution Processing delivers a clear, crisp view in HD size.

Please allow time for delivery usually one (1) to two (2) week.

325-8600, 795-9112

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

Video Search

Searching for shows and music on your TV is so simple. Just press 'GUIDE' on your remote and see what's on and what's coming up with a handy image to go with it. You also get an episode synopsis, cast and crew details and suggestions to related shows, on-demand movies and Blu-ray Disc titles.

Music Search

Find music easily with Music Search. Music Search with the TrackID button cleverly recognizes the melody of the music playing on your TV. Want to go further? Search to find more songs by the same artist and other related web content and share your discovery with the world via Twitter.

Sony Entertainment Network

Experience the endless entertainment of the Sony Entertainment Network, where thousands of movies, TV shows, online videos, games and music are always at your fingertips. By connecting to the Internet you can access Full HD 1080p entertainment, 3D content² and made-for-TV apps like Netflix, Pandora, YouTube, Facebook and more.

Broadband speed of at least 2.5 Mbps recommended (10 Mbps for HD). Content subject to change and may require fees. Wireless connectivity requires 802.11 home network (802.11n

recommended). Skype requires CMU-BR100 camera sold sep. Subject to Skype's terms and conditions.
²Requires 3D content, 3D player, HDMI cable (at least 10.2 Gbps) and 3D active glasses sold separately.
³Streaming content, copy-protected content and certain formats are not supported. Requires devices connected to the same wireless home network.
⁵Requires active Internet connection.
⁶Compared to normal viewing. Based on 40-inch LED TV with Picture Setting 'Vivid'.

3D Technology Checklist

This product is 3D-related. To help you get a great 3D experience, use the checklist below to ensure you have everything you need. 3D viewing requires:

Product Features

- Brilliant Full HD (1080p) picture quality for 2D & 3D
- It has 46-inch display with full HD (1080p) 2D/3D picture and sleek "monolithic" OptiContrast panel with Corning Gorilla Glass
- Intelligent Peak LED backlighting with full-array local dimming for Sony's most precise contrast
- Experience smooth and precise motion detail during fast-action video with Motionflow XR 960 technology

Product Description

Internet-Ready Television

Internet-ready TVs use your broadband connection to deliver dynamic content, whether it's streaming video from Netflix, new music from Pandora, or a

A Display

First, you'll need a 3D-ready display--whether it's a 3D HDTV, 3D projector, or 3D computer monitor. These displays have more processing power than standard 2D models for displaying 3D images in rapid succession.

A Source

Your display may be ready for 3D playback, but you'll still need a device to read 3D content. This can be a

Please allow time for delivery usually one (1) to two (2) week.

325-8600, 795-9112

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

cable box with a subscription to a 3D channel, a 3D Blu-ray Disc player, or a PlayStation 3 system.

3D Content

3D content--the actual entertainment, in other words--will be played back using the source mentioned above, whether it's a 3D broadcast from your cable provider, a 3D Blu-ray Disc, or a 3D video game.

3D Glasses

For now, the vast majority of 3D HDTVs require glasses for 3D viewing. Many use powered "active shutter" glasses, others polarized "passive" glasses. You'll need one pair per viewer, and they'll have to be compatible with your display, whether they're the same brand, or a pair of "universal" glasses designed to work across brands.

HDMI Cable

To connect your source (such as a 3D Blu-ray Disc player) to your display, you'll need a high-speed HDMI cable. Cables with this designation feature bandwidth speeds up to 10.2 Gbps (gigabits per second), for carrying the 3D signal without any loss of quality.

If you want to get more information about 3D, shop our 3D products, watch videos, or interact with other customers, we invite you to visit 3D 101, our customer center about everything 3D.

March 2011

The HX929 series pairs uncompromising technology, simple connectivity, and elegant design, earning its spot at the

top of Sony's 3D HDTV lineup. Enjoy brilliant Full HD picture quality for both 2D and 3D programming, and a new level of precision and detail with Intelligent Peak LED full-array backlighting with local dimming. Sony's X-Reality PRO video processing delivers optimal color, contrast and sharpness--even with low-resolution web videos. Speaking of web videos, built-in Wi-Fi gives you connected entertainment options galore thanks Sony's BRAVIA Internet Video and Widgets. Or play back your digital video, music, and photo files right over your home network from DLNA certified devices. Whatever your entertainment preference, the XBR-55HX929 will deliver in spades--the best of the best.

3D in Full HD 1080p

Enjoy 3D action with razor-sharp detail.

Enjoy an immersive, realistic movie and gaming experience in Full HD 1080p using Sony's 3D active glasses and connecting a compatible 3D Blu-ray Disc Player or PlayStation 3 gaming console.

Sony's 3D glasses are adjustable and comfortable, designed with side panels to block out excess light that can create an annoying glare on other glasses. Better yet, they fit over prescription eyewear, and feature batteries that last up to 100 hours.

When viewed through the active shutter glasses, the on-screen image is precisely synchronized and delivered with the image intact, for an optimum 3D viewing experience. And since each frame you see is shown at Full HD resolution, the 3D action comes alive with razor-sharp detail.

In fact, from the moment you turn on the XBR-55HX929, you'll notice a sharp, vibrant picture, whether you're enjoying 2D or 3D content. Sony's video processing technologies work together to deliver breathtaking picture quality with reduced visual noise, enhanced color and overall image detail, even on 1080p sources such as PlayStation 3 systems and Blu-ray Disc players.

The Best of the Best

TELEVISIONS 40 INCH – 42 INCH – 46 INCH – 55 INCH – 65 INCH

Sony's OptiContrast Panel produces deeper images with superior black levels even in bright rooms.

Intelligent Peak LED Backlight

Experience Sony's best picture quality and extraordinary contrast with full-array local dimming technology. This innovative technology consists of an array of LED lights that adjust the bright and dark levels in each area of the screen for more precise control of the picture.

Sleek "Monolithic" Design

Sony's monolithic design consists of a sheet of Corning Gorilla Glass stretching from edge-to-edge, adding some elegance to your viewing room. It looks just as good when it's off as it does when it's on.

The HX929 series also features Sony's new OptiContrast panel, which features a design and surface treatment to minimize reflection, producing deeper images with superior black levels even in bright rooms.

Sony's Motionflow XR 960 technology delivers smooth and precise detail during fast-action scenes.

Motionflow XR 960

Experience stunning motion clarity with Sony's Motionflow XR 960 technology. The combination of full-array LED backlighting and high frame-rate technology

reduces blur caused by quick camera movements and enhances image sharpness. See smooth motion during fast action movies and an overall clearer picture. This is Sony's highest level of motion processing, with a difference you can see right away.

X-Reality PRO Engine

Enjoy the best picture experience no matter what you're watching. Sony's X-Reality PRO engine brings out incredible detail through multi-frame, pixel-by-pixel analysis of each scene. You will see optimal color, contrast and sharpness, even when viewing lower resolution web videos.

Smart Design, Smart Features

Corning Gorilla Glass

Enjoy an incredibly durable, remarkably lightweight, frameless design with Corning's exclusive Gorilla Glass. Combined with the Opti-Contrast panel, this HDTV boosts contrast, increases brightness, and minimizes unwanted light reflections.

Intelligent Presence Sensor

Enjoy an incredibly customized picture and sound experience every time. Sony's Intelligent Presence Sensor uses built-in Face Detection technology to turn itself off if no one is watching, warns children when they're too close to the screen and adjusts picture and sound based on where people are sitting in the room.

Energy Saving Switch

Even when turned off, most electronics are still using energy if they are plugged in. With

Sony's Energy Saving Switch you can easily eliminate this standby power without the fuss of plugging and unplugging the cord. When the switch is turned in the "OFF" position it reduces the television's standby power to nearly nothing.

USB Photos, Videos & Music

Share your photos on the big screen or listen to your favorite music. Simply connect your digital camera, USB-enabled MP3 player, or USB storage device directly to your HDTV's USB input.

Sony's Intelligent Presence Sensor uses built-in Face Detection technology to turn itself off if no one is watching.

LightSensor Technology

Enjoy customized picture brightness and save energy without lifting a finger. The built-in Light Sensor automatically adjusts the picture brightness based on the amount of light in the room.

BRAVIA Sync Compatible

Conveniently operate and control other BRAVIA Sync compatible devices--including BRAVIA HDTVs, Blu-ray Disc Players, surround sound systems, Handycam camcorders and Cyber-shot digital still cameras, all with one remote control when connected via HDMI.

Please allow time for delivery usually one (1) to two (2) week.

TELEVISIONS 40 INCH – 42 INCH – 46 INCH – 55 INCH – 65 INCH

Faster Start-Up

Quick Start & Viewing feature enables this Sony television to go from 'OFF' to 'ON' 2-3 times faster than previous Sony televisions.

BRAVIA Internet Video and Widgets: Endless Entertainment

With integrated BRAVIA Internet Video, there's always something on. Using your home broadband internet connection, you can access premium content including movies, TV shows, videos and music from providers like Qriocity, Netflix, Hulu Plus, Pandora, and many more to instantly stream your favorite media.

Or perhaps you're a social media addict? Internet Widgets like Facebook and Twitter let you connect and share, and get up to the minute information while you enjoy your television.

Connecting is a breeze thanks to the HX820 series' built-in Wi-Fi. No need to addan external adapter--connect to your wireless network right out of the box (if you'd prefer a wired connection, use the built-in Ethernet port and you're all set).

You can also access and share photos, videos, and music on your TV by streaming them from compatible DLNA devices like your PC, Playstation 3 system, network storage, etc.

Finally, the XBR-55HX929 is Skype Ready: Easily connect to family and friends live on your HDTV wherever they are with Skype! Enjoy free high definition Skype-to-Skype video calls from the comfort of your living room. Simply attach the [Sony compact microphone/camera for](#)

[Skype](#) (required, sold separately) and see your friends on the big screen.

Toshiba 40E220U 40-Inch 1080p 60Hz LCD HDTV

Product Description

Toshiba E220U 40-Inch
1080p LCD HDTV

Discover the height of HD entertainment and the finest in big screen value with the affordable 40" E220U LCD HDTV, bringing you 1080p Full HD10 brilliance plus the assurance of Toshiba quality and reliability.

The Latest in TV Technology

DynaLight® Dynamic Backlight Control uses advanced technology to monitor the brightness of each video frame and automatically adjusts backlight intensity based on what's being shown. This creates higher dynamic contrast. The result is a powerful picture with deeper blacks and enhanced grayscale for greater image details. This TV also comes with an Auto Brightness Sensor, which adjusts the picture to the surrounding room light.

Audyssey® Audio Technology

Audyssey EQ® provides clear, accurate and natural sound right out of the box. This technology optimizes the sound quality based on the speaker enclosure and room acoustics. Audyssey EQ® technology ensures you enjoy your audio experience as much as your video. And Audyssey® ABX (Bass Extension) uses sophisticated driver analysis and low-frequency monitoring to extend the range and bass of smaller speakers. The result is balanced sound with richer lows from movies, video games and more.

And these TVs definitely help you expand, too, providing a USB port for plugging in a camera or MP3 player, plus three HDMI ports to help you build-out a home theater. Plus, they're draped in famous Toshiba quality and

reliability, featuring an ultrathin design that fits most any decor.

Key Features:

1080p Resolution

Delivering more than just high-definition, the 1080p full HD* output on this TV represents the finest HD picture quality available today. Skin tones, textures and landscapes suddenly seem like real life. Shadows are deeper and richer. Colors pop. Highlights come alive with amazing character. The secret is more pixels. In fact, on a 1920 x 1080 resolution screen, 1080p full HD* content displays over 2,000,000 pixels--a standard 720p HD display less than half that.

LED Technology

Driven by LED backlight technology, this TV displays images using liquid crystal illumination like traditional LCD models. But unlike LCD TVs, the LED backlight is made of several light-emitting diodes (LEDs). The

Please allow time for delivery usually one (1) to two (2) week.

325-8600, 795-9112

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

result is a picture offering deeper blacks, brighter whites and vivid colors.

60Hz Refresh Rate

A measure of how often images on your Toshiba HDTV screen are "redrawn" each second, a 60Hz refresh rate ensures you'll enjoy great picture quality for the money.

DynaLight

Adding intensity to blacks and selectively reducing the intensity of highlight areas, DynaLight gives the TV picture a more balanced, true-to-life appearance. It utilizes advanced histogram technology to monitor the brightness of each video frame and automatically adjust backlight intensity based on what's being shown. This allows for numerous levels of control, and can create dynamic contrast many times what you'd normally get. The result is a powerful picture with deep blacks for increased detail and incredible depth.

CineSpeed LED Panel

This special LED screen delivers superior high-speed video. Plus, its

wide viewing angle ensures you'll experience better viewing from a variety of seating areas.

Native Mode

Many TV broadcasts, movies and other content are produced in standard def 480i and 480p or high-def 720p. Depending on the show or your preferences, there are times when you may not want your Toshiba 1080p or 720p TV to automatically upconvert those signals. Native Mode lets you easily take control. On our 1080p HDTVs, Native Mode eliminates unnecessary scaling of full HD signals that can reduce overall image resolution--and quality. Activated on either our 720p or 1080p TVs, it also displays the image edges many sets lose to normal over-scanning.

Gaming Mode

Lets you enjoy hair-trigger action on your Toshiba TV with a special setting that reduces game controller delay.

HDMI with CEC*

Technology that enables you to easily connect to high-definition video and immersive

surround sound in one cable, and control like-equipped home theater components with one remote control.

USB with Music and Photo

Easily connect to your favorite music and photos via USB.

High-Res PC Input

Enables you to enjoy high-definition images when you connect a PC to your Toshiba TV

VESA Mounting Pattern

A pattern of video industry standardized holes used for mounting to stands or wall, which allows for use of universal mounts when mounting your TV.

- **Image Aspect Ratio:** 16:09
- **Image Contrast Ratio:** 40000:1
- **Speaker Count:** 2
- **Resolution:** 1080p
- **Refresh Rate:** 120

Product Description

Compromise on price but not on features. Samsung's affordable 630 LCD HDTV series delivers Full HD resolution, playback of files from USB drives or over your

home network from DLNA Certified devices, a wealth of HDMI inputs, and plenty more, all wrapped up in Samsungs eye-catching "Touch of Color" design.

An affordable 40-inch LCD

panel with full HD resolution, DLNA/USB media playback, and other solid features.

Crisp, Clear Picture Quality From a TV With a True Sense of Style
1080p Full HD With Four HDMI Inputs

The LN40D630 delivers Full HD 1080p resolution, for a superb level of detail and clarity in your picture. To connect your sources, four separate HDMI inputs are provided, for delivering a Full HD picture and audio over a single cable.

Touch of Color Design

Samsungs "Touch of Color" design features a hint of amber color naturally blended into Samsungs traditional piano black bezel

frame, for eye-catching style even when your TV is turned off.

The LN40D630 lets you stream content directly from DLNA Certified devices (PCs, network storage, etc.) over your home network.

Samsungs "Touch of Color" design features a hint of amber color naturally blended into Samsungs traditional piano black bezel frame.

Exceeds ENERGY STAR Standards

The LN40D630 exceeds the strict energy efficiency guidelines set by the EPA and US Department of Energy by up to 30%. That means you get lower utility costs, and a smaller carbon footprint.

ConnectShare Movie

Connect a thumb drive or digital camera quickly and easily via the LN40D630's USB port. An intuitive, user-friendly interface allows access to videos, music, or pictures via the remote.

Auto Motion Plus 120Hz with Clear Motion Rate

Auto Motion Plus 120Hz brings action movies and sports to life in the living room, thanks to frame-to-frame smooth motion. This technology eliminates motion blur by calculating the image and inserting it, creating a non-repetitive transition from one frame to the next. Blur is virtually

TELEVISIONS 40 INCH – 42 INCH – 46 INCH – 55 INCH – 65 INCH

eliminated and clarity enhanced, for smooth, lifelike motion.

AllShare DLNA Networking

For even more entertainment options, the LN40D630 lets you connect to your home network and stream music, videos, and photos from other DLNA Certified devices (your computer, network storage drive, etc.).

Game Mode

The LN40D630 features a "game mode," which turns off much of the picture processing for a faster video response. This is ideal for fast-paced video sources like video game systems, and will help gamers get the performance they're after.

Audio Performance

SRS' TheaterSound, available in new Samsung HDTVs, is an all-in-one audio suite that directly addresses the three most common consumer TV audio complaints--inconsistent volume levels, unintelligible vocals, and poor, dimension-less sound. SRS helps ensure you get great audio from the LN40D630's two 10-watt speakers, and additional technologies like Dolby Digital Plus and support for multi-channel sound (MTS) add even more on the sonic side of things.

PC Connectivity

The LN40D630 also features a PC input, so you can use it as a computer monitor.

Product Description

The Philips 40-Inch 1080p LCD HDTV delivers exceptional image quality, crisp sound performance, and broad connectivity. Compatible with 1080p devices, this HDTV allows you to make the most of the latest Blu-ray and game releases. It also boasts Incredible Surround sound technology, energy efficiency, and a versatile collection of inputs and outputs.

40-inch 1080p LCD HDTV 40PFL3706/F7

At a Glance:

- 1080p widescreen LCD display for vivid, cinema-quality images
- Pixel Plus HD improves natural detail and optimizes contrast
- Connect your PC, DVD, Blu-ray player, and USB device for access to many file formats
- EasyLink HDMI inputs let you control three connected devices with TV remote
- Incredible Surround audio technology optimizes sound balance between channels
- Energy Star certified
- One-year limited warranty

1080p Resolution Supports the Latest Media

The Philips 40-Inch 1080p LCD HDTV supports 1080p signals, so you'll be able to enjoy Blu-ray and high-definition games. The TV also features signal processing, which helps keep image quality pristine. The result is a crisp, high-resolution image that is free

Please allow time for delivery usually one (1) to two (2) week.

325-8600, 795-9112

PERSONALIZED CONSULTATION ON PRODUCTS, FREE DELIVERY AND SET-UP ASSISTANCE IF REQUIRED

of pixel gaps, flickers, and other video artifacts.

Exceptional Image Quality with Any Input

The HDTV offers exceptional high-definition video, progressively scanning images to bring you a smooth, flicker-free picture. It uses Pixel Plus HD technology to process each incoming pixel before it reaches your screen, ensuring exceptional image quality regardless of what input you are using. You'll see improved detail, brighter contrast, and more vivid color--even when using older, standard-definition devices.

Audio Technology Delivers Immersive Surround Sound

The HDTV is equipped with Incredible Surround, an audio technology that expands your home theater's soundstage. Incredible Surround uses phase shifting to optimize the balance of sound between channels, resulting in an immersive audio experience. The TV also integrates a Dolby Digital output so you can connect your home theater system, giving you additional audio options.

Connect DVD Players, Computers, USB Drives, and More

You can quickly and easily connect a cable or satellite box, camcorder, game console, Blu-ray disc player, PC, and more with the HDTV's multiple inputs. Three HDMI inputs--two on the back and one on the side--with Philips' EasyLink feature let you control connected devices with the same remote control as the TV. And, all you need to connect your PC is a VGA cable.

You can also access pictures and music (JPEG and MP3 formats) from most USB devices, thanks to a USB input on the side of the TV. The HDTV provides an on-screen content browser so it's easy to view images and listen to music.

Energy-Efficient Features Reduce Power Consumption

The HDTV is Energy Star certified. The TV's circuitry dramatically reduces power consumption, so the device uses less than 1 watt of power while in standby mode.

Product and Warranty Information

The Philips 40-Inch 1080p LCD HDTV measures 25.63-by-38.9-by-9.06-inches (H x W x D) including the stand and is backed by a manufacturer's one-year limited warranty.

What's in the Box

Philips 40PFL3706/F7 40-Inch 1080p LCD HDTV, remote control, tabletop stand, power cord, quick start guide, user manual, registration card, and 2 "AAA" batteries for remote control.
